REMARKS

The figures of births and deaths shown in this statement for week ending the 26th February 1955, relate to 196 towns with an estimated population of 25,803 thousands. The total number of towns is 300 and their population is 38,987 thousands. Thus 65% of the total number of towns representing 66% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 14,391 and 6,158 representing birth and death rates of 29.0 and 12.4 per thousand of population respectively.

(A) States (Part A and Part C).—The data here relate to 171 towns with an estimated population of 22,576 thousands. Information about Ajmer, Bhopal, Bihar, and West Bengal could not be included. The total number of towns is 252 and their population is 32,571 thousands. Thus 68% of the total number of towns representing 69% of the total

population is covered. The number of births and deaths recorded in these towns were 13,118 and 5,592 representing birth rates and death rates of 30.2 and 12.9 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B).—The data here relate to 25 towns with an estimated population of 3,227 thousands. The total number of towns is 48 and their population is 6,416 thousands. Thus 52% of the total number of towns representing 50% of the total population is covered. The number of births and deaths recorded in these towns were 1,273 and 566 representing birth and death rates of 20.5 and 9.1 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population
